POSSE KILLED TWO PIUTES AND LOST TWO DEPUTIES

Colorado Sheriff and His Men Surrounded by Indians

RELIEF PARTY TO THE RESCUE

Result of Battle in Wild Section of Utah Will Not Be Known Until Assistance Arrives.

Grayson, Utah, Feb. 21.—In a battle between the force of deputies under United States Marshal Aquila Nebeker, of Salt Lake City, and the Piute Indians, outside of Bluff, Utah, two Indians were killed, and six taken prisoners. One white man lost his life and two were wounded.

The posse tried to surround the Indians' position at daybreak this morning, but the Indians heard them and immediately opened fire. Joe Akin, Dolores, Col., fell at the first volley. Firing continued for some minutes and two Indians were seen to fall dead.

Both sides ceased firing and Marshal Nebeker sent Marcos Jim, a Piute, who had joined the white men, to parley with the Indians and urge them to surrender. After a long parley, Marcos Jim returned to the posse with the message from the Indians: "We will fight until death."

While the marshal was waiting for this information, another band of Indians, under a chief named Casey, came up the San Juan River about forty strong and attacked the posse from behind. The white men replied to the attack and held them off. In the meantime, the Indians camped up on the rocks outside Bluff reopened the attack and the posse was caught between two fires. One man, whose name is not known, was shot. At last reports he was still alive, but in serious condition.

The Indians, under Casey, were driven off and in retreating, they cut the telephone wires, the only line of communication with Bluff.

The last message that came through said that the Indians had surrounded the posse and a general alarm was sent out all through the country. Poses were quickly organized here, and at Monticello and other relief expeditions are being formed at Dolores, Cortez, and Mancos, Colo.

The results of the battle will not be definitely known until the Monticello posse can cut in on the telephone wire and report. The situation at Bluff is critical, however, and the posse under Marshal Nebeker will need all the assistance that can be sent to them.

ANALYSIS OF FAITH

Sermon of Rev. W. F. Meyer at Union Service Sunday Evening

The Baptist and Second Congregational churches resumed their special union services last evening with Rev. W. F. Meyer as preacher in the Congregational church.

The sermon was a helpfully, simple and practical analysis of faith as the Master approved and rewarded it in those who came to him for healing of body and forgiveness of sins. The ingenuity of true faith to find a way, its persistence in the face of obstacles, the indifference to the cost of things on the part of those who were determined to have the blessing, and especially the necessity of confidence and trust in Jesus, were the emphases of the preacher in drawing out the New Testament lesson for men and women today.

A pleasing feature of the service was the incoming of the Baptist C. E. society and others from that church in a body and occupying front seats.

An interesting part of the exercises was a brief address by W. E. Bristol, a field secretary of the International Y. M. C. A., who is recently back from France where he has been serving in the Red Cross and Association work. Two hundred thousand Y. M. C. A. workers and members, he said, were in the armies on both sides. He just touched upon the sorrowful conditions of the strife, but brought a message of hope and cheer respecting the new religious spirit and life that had developed out of the war in the various countries.

RUSSIAN DEFEAT SEVERE.

Germans Believe Not Much is Left of Five Army Corps.

Further reports concerning the German victory of the Mazurian lakes in East Prussia, make it apparent that the Russian defeat was a severe one, says a wireless dispatch from Berlin to Sayville, L. I. German military officers in Berlin doubt whether much remains of about five Russian army corps which were engaged in the recent battle. While the Russians may have saved some of their artillery through quick retreat, it seems certain, army men say, that Russian troops to the number of at least 150,000 are no longer to be reckoned with by the German armies. The clearing of the Austrian crown land of Bukovina of the invaders also is taken by German officials to mean a Russian defeat on the other extreme wing of the operations in the east.

She bore her suffering patiently and with Christian fortitude. She was a devoted member of the Baptist church and was especially interested in the Missionary and Young Peoples society of which she was an active member. FIRST AMERICAN SHIP DESTROYED DURING WAR

Evelyn Blown Up By Mine When Approaching Bremen

RESPONSIBILITY NOT FIXED

Disaster Occurred Outside New War Zone But Close to German Coast.

Bremen, Feb. 22.—The American steamer Evelyn, which sailed from New York on January 29 with a cargo of cotton for Bremen, struck a mine Saturday off Borkum Island, in the North sea, according to a dispatch from Bremen by way of London at 7:40 p. m. yesterday. The vessel sank. Her captain and 27 of her crew were saved. The nationality of the mine which destroyed the Evelyn has not been established.

The Evelyn is the first American vessel to meet with disaster, as a result of the sea warfare of the European nations. She did not sink within the war zone included in the German admiralty's decree of the 4th, which went into effect on Thursday. Borkum Island lies directly off the German coast at the mouth of the Elbe River and is German territory. Maritime records give the complement of the Evelyn at 25 men, so that it is probable that all on board the vessel were rescued.

The Evelyn was a single-screw steel steamship and was commanded by Capt. Smith. She belonged to Harriett Ivey & Vose of New York. She was 252 feet long and 1185 tons net. She was built in Southampton, Eng., in 1883. Her home port was Philadelphia.

Washington, Feb. 22.—The United States government was officially advised last night of the destruction of the first American vessel on the high seas since the outbreak of the European war. American Consul Fee at Bremen cabled that the steamer Evelyn and her cargo of cotton bound for Bremen had been "blown up" in Borkum, just off the coast of Germany, but that the crew had been saved. The cause—submarine or mine—was not given in the dispatch. After a conference with President Wilson, Secretary Bryan cabled Ambassador Page at London and Ambassador Gerard at Berlin to make an exhaustive inquiry as to the facts, and, if the crew was landed at either of their respective jurisdictions, to furnish every care and convenience to Capt. Smith and his men so that they might return home safely.

Although the extent of sea zones of war proclaimed by Germany was never defined exactly, the Borkum islands are considered far distant from the danger areas of submarines, although the waters of what vicinity are filled with mines for defensive purposes through which Germany always has piloted incoming ships. At the German embassy, last night, it was pointed out that the accident must have been caused by a mine as Germany, sorely in need of cotton, would have no object in torpedoing a vessel laden with such a cargo for German consumption.

Early press dispatches from Berlin announcing the loss of the vessel by a mine caused somewhat of a sensation in this capital, where the tension has been more or less pronounced over the situation in the war zones since the dispatch of warning notes by the United States to both Great Britain and Germany. It was virtually conceded that, if the cause of the accident was proved to be a mine, there probably would be no ground for diplomatic action by the United States, as the laying of mines is not prohibited by any international convention now in force.

AEROPLANE IN ESSEX

Bombs Dropped Within 50 Miles of London

London, Feb. 22.—An aeroplane was seen over Braintree and Colchester in Essex, within 50 miles of London last night. Several bombs were dropped, but they did little damage, other than wrecking a house at Colchester. Some of the bombs failed to explode.

The aeroplane, said to be a German, according to a dispatch from London at 2 a. m. today, also dropped bombs at Marks Tey, six and a half miles west of Colchester and near Coggeshall, but no serious damage resulted. The machine was last reported as making off to sea.

AUSTRIA FOLLOWS GERMANY.

Will Attack Neutral Shipping with Submarines.

Geneva, Feb. 21. (Dispatch to The London Daily Chronicle).—According to an Innsbruck dispatch, Austria is going to follow Germany's lead in her sea programme, though possessing only a few submarines. She intends to attack neutral shipping in the Adriatic, and is only awaiting orders from Berlin. This attitude shows that Austria considers war with Italy inevitable.

Peculiar After Effects of Grip This Year

Leaves Kidneys In Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root, which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50 cents and \$1.00. For sale at all druggists. Be sure to mention this paper.
